ALERTE AUX OBSTACLES AU COMMERCE

03/04/2018	En cours de résolution	Message du PFN le 03/04/2018: Dear Sir, Please find attached an obstacle reported on the TOAM platform concerning the release from MRA Customs for imports of medical devices and cosmetics. We would be grateful if you can look into the matter and provide your justifications. Best Regards, The National Focal Point Réponse de l'agence compétente le 25/05/2018: Catheters and medical consumables such as syringes, needles, cannulae and the like classifiable under tariff heading 9018 do not require clearance from Ministry of Health. However, clearance from Pharmacy Board, Ministry of Health is required for pharmaceutical products falling under Chapter 30 as well as, only in cases, where perfumes, soaps and cosmetics are suspected to be meant for medicinal uses and/or which may contain any harmful or unauthorized substances/ingredients, such as face whitening creams containing mercury.
07/06/2018	Résolu - Guidance	Dear Sir, Please find above reply from The Ministry of Health. We trust the issue has been resolved. Best Regards, The National Focal Point
