<td>The director of technical services, indicated that his office is willing to conduct this facility audit even tomorrow. I have given his contacts to the entrepreneurs, and as soon as she contacts the director, the facility audit will be conducted. Dear user, kindly contact come to the Office of The Gambia Food Safety and Quality Authority, 103 Kariaba Avenue, traffic light to arrange audit procedures. Please also be aware that the EU had a new guideline for issuing herbal SPS certification. In this case, only the SPS Office under the Ministry of Agriculture can issue the certificate, and they too, do not have an accredited lab, UK, under agriculture.</td>
